## FOUNDATION

# What is tarot?

Tarot is a symbolic system made of images, archetypes, numbers, elements, and stories. A traditional tarot deck contains 78 cards: 22 Major Arcana cards and 56 Minor Arcana cards.

Tarot is not only a method for prediction. In a practical modern approach, tarot is a mirror for self-reflection. The cards help you slow down, look at a situation from multiple angles, and name patterns that may already be active in your life.

Each card contains a symbolic field. A card can speak about emotion, action, conflict, healing, choice, identity, fear, desire, money, relationships, timing, or transformation. The meaning depends on the card, its position, the question, the surrounding cards, and your honest relationship with the situation.

**CORE IDEA**

Tarot does not force a future. It reveals patterns, choices, energies, fears, desires, and possibilities. The power remains with the person receiving the reading.

## The 78-card structure

| Concept      | Meaning                                                                                                                      |
|--------------|------------------------------------------------------------------------------------------------------------------------------|
| Major Arcana | 22 cards representing large life themes, archetypal lessons, transformation, identity, spiritual growth, and turning points. |
| Minor Arcana | 56 cards representing daily life, emotions, thoughts, actions, work, money, relationships, and practical decisions.          |
| Four suits   | Cups, Swords, Wands, and Pentacles. Each suit has a different element and life area.                                         |
| Court cards  | Pages, Knights, Queens, and Kings. They can represent people, attitudes, roles, maturity levels, or ways of using energy.    |

**MECHANISM**

# How does tarot work?

Tarot works by combining symbolic images with focused attention. When you ask a question and draw cards, your mind begins to connect the symbols with your current situation.

A tarot reading is not powerful because the card controls reality. It is powerful because it gives your intuition a language. Symbols bypass overthinking and help you see what logic alone may avoid.

A good reading brings together four layers:

- Symbolism: the image, archetype, number, suit, and element of the card.
- Position: where the card appears in the spread, such as past, present, future, advice, or challenge.
- Context: the real situation, question, emotional state, and available choices.
- Intuition: the inner response, feeling, memory, or insight triggered by the card.

**THE PRACTICAL VIEW**

Tarot is best used as a decision-support and reflection tool, not as a replacement for responsibility. A reading should make you more conscious, not more dependent.

## Prediction vs guidance

Some people use tarot for prediction. The Power Tarot is built more as a guidance and reflection system. Instead of asking only "What will happen?", ask "What energy is active?", "What am I not seeing?", "What choice supports my growth?", or "What pattern needs to change?"

**PURPOSE**

## How tarot can help you

Tarot can help by creating a pause between reaction and decision. It gives you a visual and symbolic way to explore what is happening inside and around you.

- Clarify emotions when your mind is overloaded.
- Notice hidden fears, desires, or repeating patterns.
- Explore options before making a decision.
- Reflect on relationships, work, money, creativity, and personal growth.
- Create a daily ritual for awareness and intention.
- Support journaling, meditation, and intuitive development.

**BOUNDARY**

Tarot can support reflection, but it should not be used to avoid direct communication, professional help, legal responsibility, medical care, or financial planning.

## PREPARATION

# How to prepare for a reading

A clear reading starts with a clear state. You do not need a complicated ritual, but you do need attention. The quality of the question and the state of the reader influence the quality of the interpretation.

- Take three slow breaths before drawing cards.
- Write the question or intention in one sentence.
- Avoid reading when you are desperate for one specific answer.
- Do not ask the same question repeatedly in one sitting.
- Keep a journal so you can track patterns over time.
- Read for guidance, not for control.

## A simple opening ritual

- Place your attention on your breath.
- Name the situation honestly.
- Ask for clarity, not confirmation.
- Draw the card or cards.
- Write the first impression before analyzing too much.

## QUESTIONS

## How to ask better tarot questions

The question shapes the reading. A weak question creates a vague answer. A strong question opens useful insight and practical movement.

| Instead of asking                        | Ask this                                            |
|------------------------------------------|-----------------------------------------------------|
| Will this happen exactly the way I want? | What energy is influencing this situation?          |
| Does this person love me?                | What do I need to understand about this connection? |
| Should I quit immediately?               | What should I consider before making this decision? |
| When will my life change?                | What action can support the change I want?          |

**BEST FORMULA**

Ask questions that begin with: What do I need to understand? What energy is active? What is the lesson? What can I do? What am I not seeing?

## INTERPRETATION

# How to interpret tarot cards

Interpretation is the art of connecting the card meaning with the real question. Do not read cards as isolated definitions. Read them as symbols inside a story.

Use this five-step method:

- 1. Look first. Observe the image before reading a meaning. What stands out - color, posture, direction, expression, object, or symbol?
- 2. Name the card. Identify the card, suit, number, and whether it is upright or reversed.
- 3. Connect to the position. A card in the past position speaks differently than the same card in the advice position.
- 4. Link to the question. Ask how this card answers the specific question.
- 5. Translate into action. A good reading ends with a practical next step or reflection prompt.

## The interpretation triangle

| Concept          | Meaning                                                                                    |
|------------------|--------------------------------------------------------------------------------------------|
| Card meaning     | The symbolic meaning of the card itself.                                                   |
| Spread position  | The role of the card in the reading: past, present, future, advice, challenge, or outcome. |
| Question context | The real-life issue, emotional tone, and choices available.                                |

**RULE**

Never interpret a card without the question. Never interpret a question without the card. The meaning is created by the relationship between both.

## ORIENTATION

## Upright and reversed cards

An upright card often shows the direct, available, or conscious expression of the card. A reversed card does not automatically mean something bad. It may show blocked energy, internalized energy, delay, imbalance, resistance, shadow, or a lesson that needs attention.

| Orientation | Possible expression                                                                                 |
|-------------|-----------------------------------------------------------------------------------------------------|
| Upright     | Direct expression, available energy, conscious movement, external manifestation, clarity, support.  |
| Reversed    | Blocked expression, delay, inner work, resistance, imbalance, shadow, lesson, or redirected energy. |

## STRUCTURE

# Major Arcana

The Major Arcana describe large archetypal themes. When several Major Arcana cards appear in one reading, the situation may involve a deeper lesson, identity shift, turning point, or long-term transformation.

## READ REVERSALS WITHOUT FEAR

Ask where the card energy is blocked, whether it is expressed internally, whether too much or too little is present, and what needs correction. Treat reversals as diagnostic information, not punishment.

| Major Arcana         | Core theme                        |
|----------------------|-----------------------------------|
| 0 The Fool           | beginning, trust, openness, risk  |
| 1 The Magician       | will, skill, manifestation, tools |
| 2 The High Priestess | intuition, mystery, inner knowing |
| 3 The Empress        | creation, nurture, abundance      |
| 4 The Emperor        | structure, authority, discipline  |
| 5 The Hierophant     | tradition, learning, guidance     |
| 6 The Lovers         | choice, alignment, union          |
| 7 The Chariot        | direction, discipline, victory    |
| 8 Strength           | inner power, courage, compassion  |
| 9 The Hermit         | wisdom, retreat, introspection    |
| 10 Wheel of Fortune  | change, cycles, timing            |
| 11 Justice           | truth, balance, consequences      |
| 12 The Hanged Man    | pause, surrender, new view        |
| 13 Death             | ending, transformation, release   |
| 14 Temperance        | healing, integration, balance     |
| 15 The Devil         | attachment, shadow, temptation    |
| 16 The Tower         | disruption, truth, liberation     |
| 17 The Star          | hope, guidance, renewal           |
| 18 The Moon          | fear, illusion, subconscious      |
| 19 The Sun           | joy, clarity, vitality            |
| 20 Judgement         | awakening, calling, rebirth       |
| 21 The World         | completion, integration, mastery  |

## STRUCTURE

# Minor Arcana suits

The Minor Arcana show how energy appears in daily life. The four suits correspond to elements and life areas.

| Suit              | Life area                                                            |
|-------------------|----------------------------------------------------------------------|
| Cups - Water      | Emotion, intuition, love, relationships, healing, inner sensitivity. |
| Swords - Air      | Thought, truth, communication, conflict, clarity, decisions.         |
| Wands - Fire      | Action, energy, passion, creativity, courage, movement.              |
| Pentacles - Earth | Money, body, work, home, resources, security, practical life.        |

If one suit dominates a reading, that life area is likely central. If no suit dominates and Major Arcana are present, the reading may be more archetypal and spiritual than practical.

## Numbers

Numbers give a second layer of meaning. They show movement, development, tension, or completion inside a suit.

| Number | Theme                             | Number | Theme                                   |
|--------|-----------------------------------|--------|-----------------------------------------|
| Ace    | seed, beginning, pure potential   | Six    | harmony, support, transition            |
| Two    | choice, relationship, duality     | Seven  | test, strategy, inner challenge         |
| Three  | growth, expression, collaboration | Eight  | movement, effort, repetition            |
| Four   | stability, structure, pause       | Nine   | culmination, independence, intensity    |
| Five   | conflict, challenge, disruption   | Ten    | completion, burden, fulfillment, ending |

## Court cards

| Court card | Archetype                                                       |
|------------|-----------------------------------------------------------------|
| Page       | Student energy, message, curiosity, beginning of mastery.       |
| Knight     | Movement, pursuit, action, intensity.                           |
| Queen      | Inner mastery, receptivity, emotional intelligence, embodiment. |
| King       | External mastery, leadership, responsibility, command.          |

## READINGS

# Daily card ritual

A daily card is not meant to control your day. It is meant to give you a theme to observe. Pull one card in the morning, then return to it in the evening and ask how the energy appeared.

- Morning: What energy wants my attention today?
- Action: What is one practical step I can take today?
- Evening: Where did this card appear in my thoughts, actions, or relationships?

**BEST PRACTICE**

Do not redraw the daily card because you dislike it. The uncomfortable card is often the one that teaches the most.

## One-card reading

A one-card reading is useful when you need clarity without overcomplication. It is direct, fast, and powerful when the question is focused. Use it for daily guidance, emotional check-ins, simple decisions, or meditation.

- Ask one clear question.
- Read the card as the central message, not as a complete prediction.
- Write one sentence of insight and one action step.

## Three-card reading

The three-card reading used in The Power Tarot can be read as Past - Present - Future. It shows a movement: what influenced the situation, what is active now, and what direction may open depending on your response.

| Position | How to read it                                                                                                |
|----------|---------------------------------------------------------------------------------------------------------------|
| Past     | What shaped the current situation - an event, pattern, belief, emotional memory, or previous choice.          |
| Present  | The active energy now. Usually the most important card because it shows where attention is needed.            |
| Future   | A possible direction, not a fixed destiny. What can develop if the present energy continues or is integrated. |

## INTEGRATION

# Journaling prompts

Journaling turns a reading into integration. Without reflection, a reading can become entertainment only. With journaling, you begin to see patterns across days and weeks.

- What was my first emotional reaction to this card?
- Where does this symbol already appear in my life?
- What truth am I avoiding?
- What action does this reading ask from me?
- What would I do differently if I trusted this insight?
- What pattern has appeared in several readings?

## THE APP

## How to use The Power Tarot web app

The Power Tarot web app is built as a ritual interface for daily use. It combines daily card guidance, one-card and three-card readings, breathwork, card library, and a spiritual journal.

| App area | Purpose                                                                                                       |
|----------|---------------------------------------------------------------------------------------------------------------|
| Today    | Draw your daily card and receive a daily energy, action, affirmation, and reflection prompt.                  |
| Reading  | Choose a one-card or three-card reading. Write a question, shuffle, reveal, and read the full interpretation. |
| Breathe  | Use a short breath ritual before reading to calm the body and reduce reactive interpretation.                 |
| Journal  | Review saved readings, mark favorites, and return to important messages.                                      |
| Library  | Explore every card, search meanings, open details, and study upright and reversed interpretations.            |

**RECOMMENDED FLOW**

Breathe for one minute, write your question, draw the reading, read the interpretation, then save one practical action in your journal.

## ETHICS

# Boundaries and responsible use

Tarot should increase awareness and responsibility. It should not create fear, dependency, or avoidance. A healthy tarot practice leaves you more grounded, not more anxious.

- Do not use tarot to spy on people or invade privacy.
- Do not make medical, legal, financial, or psychological decisions based only on a reading.
- Do not repeat the same question obsessively.
- Do not hand your power to the cards. Use them as a mirror, not a master.
- When a reading creates fear, pause and return to the body before interpreting.

**DISCLAIMER**

The Power Tarot is intended for personal spiritual reflection, meditation, journaling, creativity, and entertainment. It does not provide medical, legal, financial, psychological, or professional advice. You are responsible for your own choices and actions.

## CLOSING

## Final note

Tarot is most powerful when it becomes a practice of honesty. The card does not need to impress you. It needs to help you see. Return to the deck with respect, clarity, and responsibility. Let each reading become a conversation between symbol, intuition, and conscious action.

*Ask clearly.  
Draw honestly.  
Interpret responsibly.  
Act consciously.*
